LLC “NEWRAN”

Rules and Regulations

for sports and mass events held in 2027

These Regulations govern the interaction between event participants and the organizers.

The events are organized by LLC “NEWRAN” (hereinafter — the Organizing Committee) in cooperation with state and local authorities and partners.

These Regulations form an integral part of the decision to hold the event.

The route, event rules and prize structure are published separately in the section of each distance 14 days before the event.

01 General Provisions

1.1 The main means of communication between participants and the Organizing Committee is e-mail: info@newrun.com.ua.

1.2 A request sent by e-mail will be considered within 48 hours on business days. Messages sent via messengers, social networks and phone calls are not subject to mandatory consideration.

02 Participant Registration

2.1 Participants register in the RaceNext app.

2.2 To register for an event, you need to:

1. Download the app.
2. Sign up in the app and create a participant profile.
3. Choose the event and distance.
4. Optionally, add the “Entry Fee Insurance” service (Section 4).
5. Pay for the registration.

2.3 **Registration of minors.** Minor participants (under 18 years of age) are registered by their parents or other legal representatives — exclusively from their own RaceNext profile. During registration, the child’s data is entered and the registering person confirms their consent to the child’s participation in the event. A registration created by a minor from their own profile may be cancelled.

2.4 Registration for an event closes on Tuesday at 12:00 of the week in which race packets are to be distributed. The Organizing Committee may suspend or fully close registration early if the planned participant limit is reached.

2.5 The participant (and, for a minor, their parents or legal representatives) is personally responsible for the accuracy of the data provided during registration.

2.6 Registration may be cancelled if inaccurate and/or incorrect data was provided during registration (surname, first name, year of birth, gender). The data is verified at race packet pick-up.

2.7 Fees paid for participation in the event are non-refundable in accordance with the Public Offer Agreement, which the participant accepts upon registration. The exception is a refund under the “Entry Fee Insurance” service (Section 4).

2.8 If you have questions or difficulties during registration, you may contact an organizer’s representative by e-mail at info@newrun.com.ua.

03 Changes to Participant Registration

3.1 A participant may change the distance and transfer the registration to another person in the “My Events” — “Manage Registration” section. The distance may be changed only if registration for the relevant distance is open.

3.2 The new distance and the person to whom the registration is transferred must comply with the age restrictions (Section 7). A minor’s registration is changed or transferred only through the profile of their parents or legal representative.

3.3 If a participant wishes to re-register for a distance with a higher registration fee, they pay the difference in price and the registration change fee. If a participant wishes to re-register for a distance with a lower registration fee, they pay the registration change fee and the difference from the amount paid (if any); the price difference is not refunded to the participant.

3.4 **The fee for each of the above registration changes is UAH 300.**

04 “Entry Fee Insurance” Service

4.1 “Entry Fee Insurance” is an additional paid service that a participant may choose at their discretion when completing registration. The service cannot be added after the registration has been paid.

Cost of the service	UAH 250 (added at the participant’s option when completing registration)
Amount of compensation	100% of the entry slot price (the price of the service itself — UAH 250 — is non-refundable)
Where to apply	Support team: info@newrun.com.ua

4.2 A 100% refund of the entry fee is made if:

- the race is cancelled or postponed for reasons beyond the Organizer’s control (security situation, bans by authorities, adverse weather conditions);
- the participant is unable to take part due to sudden illness or injury;
- the participant is prevented from taking part by extraordinary family circumstances.

4.3 In cases of illness, injury or extraordinary family circumstances, the refund is made provided that: (a) a supporting document is submitted (medical certificate, order, ticket, etc.); (b) the support team is contacted no later than 24 hours before the start.

4.4 The cost of the service itself (UAH 250) is non-refundable.

4.5 The service is available for paid registrations. It is not the medical insurance that citizens of foreign states are required to provide (Sections 8 and 10).

4.6 Participants who have not purchased the service are not entitled to a refund (clause 2.7, Section 15).

05 Participant’s Personal Data

5.1 Responsibility for the safekeeping of personal data lies with the RaceNext app in accordance with its privacy policy.

5.2 Each participant consents to the use of their personal data and of photo, video or audio materials featuring them, without further approval, for advertising the event, without any compensation from the organizer. For minors, such consent is given by their parents or legal representatives upon registration.

5.3 All photo and video materials of the competition available to the organizer may be used as supporting materials confirming the accuracy of results and cases of violation of the participation rules.

06 Special Conditions and Preferential Categories

6.1 Special participation conditions apply to running clubs provided there are no ongoing promotions. A 15% discount is granted for registrations of 10 or more participants for paid distances.

6.2 Free participation in events is provided for the following categories:

- pensioners of all categories (age is determined as of 31 December of the year of the event);
- military personnel of the Armed Forces of Ukraine, Territorial Defense Forces, and combatants (UBD);
- persons with disabilities;
- orphans and children deprived of parental care.

6.3 The number of participants in preferential categories may be up to 20% of participants on distances with a registration fee, or until the limits are exhausted and registration for the distance is closed.

6.4 For preferential registration, a scanned copy of the document confirming the relevant category must be sent to info@newrun.com.ua, stating the city of participation and the distance. For minor participants in preferential categories, parents or legal representatives submit the request.

07 Distances, Routes, Marathon Village

7.1 Races are held at the following distances:

- Marathon — 42.195 km;
- Half marathon — 21.0975 km;
- 10 km, 5 km, 2 km, 1 km;
- 500 m, 300 m, 100 m.

7.2 The availability of the respective distances at each event is determined by the event regulations.

7.3 **Age restrictions:**

Distance	Age
42 km, 21 km	from 18 years
10 km	from 16 years
5 km, 2 km, 1 km	from 13 years
500 m	9–12 years
300 m	6–8 years
100 m	0–5 years

7.4 The participant's age is determined as of 31 December of the year of the event.

7.5 Minor participants are registered by their parents or legal representatives from their own profile (clause 2.3).

7.6 Participants aged up to 5 years inclusive are admitted to the 100 m distance, accompanied by their parents.

7.7 The participant is personally responsible for studying the route and completing it correctly. On the race routes, the organizer undertakes to:

- place hydration points at intervals of no more than 5 km;
- place food points at intervals of no more than 10 km;
- mark the routes with signs indicating turns and turnarounds;
- mark the kilometer points of the main distance route;
- provide a timing car for the leaders of the main distance race;
- provide navigation assistance by volunteers on the route.

7.8 Participants must complete the distances without using headphones.

7.9 After crossing the finish zone, a participant may not go back.

7.10 The start corral opens 10 minutes before the start of the distance, unless otherwise specified in the event regulations. At the Organizer's discretion, release from the start corral may be divided into clusters starting at certain time intervals.

7.11 In the marathon village, the organizer must provide:

- *separate changing rooms for men and women* — the organizer is not responsible for items left in the changing rooms;
- *a baggage storage* — operating hours are stated in the schedule of each event. Outside these hours, the organizers have the right to dispose of remaining items. Each participant's items must be packed and occupy one baggage unit. The participant is personally responsible for the strength and tightness of the packaging; the organizers bear no financial liability for the safekeeping of items;
- *toilets* — within the marathon village and at intervals of no more than 10 km along the route.

08 Race Packet

8.1 **Race packets are distributed 1 day before the start, unless otherwise provided by the schedule of a specific event. Race packets are not distributed on the day of the start.**

8.2 Event photos are included in the price and are published on the official social media pages. Provision of event photos in electronic or printed form is not included in the price.

8.3 Race packets are distributed at the time and place determined by the schedule of each event separately.

8.4 The contents of the race packet are published in the app separately for each distance.

8.5 To receive a race packet, a participant aged 18 or over must have a personal QR code from the RaceNext app.

8.6 Race packets of participants under 18 on all distances are issued only in the presence of one of the parents or a legal representative. Required: the personal QR code from the profile used to register, and a document identifying the minor participant (a Ukrainian citizen's passport, etc.).

8.7 If the child's surname differs from that of the parents, a document confirming the family relationship must be presented.

8.8 In addition to the documents listed, citizens of foreign states must provide medical insurance covering the risks of participation in sports competitions.

8.9 If a participant aged 18 or over cannot collect the race packet in person, it may be collected by another person who presents the participant's personal QR code from the RaceNext app. The organizer is not responsible for any transfer or use of the QR code by third parties. This rule does not apply to minor participants (clause 8.6).

8.10 If the participant's age does not meet the age requirements for the distance, the race packet may not be issued.

8.11 The cost of the race packet is non-refundable.

8.12 Race packets are not issued outside the conditions specified in these Regulations.

09 Timing, Results, Time Limits, Age Categories

9.1 The competitions are served by an electronic timing system and by judges who record, using manual timing, the results of the first 5 men and 5 women. The electronic timing system has a certified loss rate of results of no more than 3% of the total number of chips.

9.2 When there are 2,000 or more participants on a distance, the organizers provide results as chip time. With fewer participants, results may be presented as gun time. The event winner is in any case determined by gun time (Section 13).

9.3 Throughout the entire distance, the race bib must look as it did when issued. It is strictly forbidden to remove, cover or damage it (cut, bend, etc.). The race bib must be attached to the participant's chest. In case of improper attachment, the organizer is not responsible for the accuracy of results, and the participant may be disqualified.

9.4 The organizer must publish the preliminary finish protocol no later than 24 hours after the time limit for completing the distance expires.

9.5 Participants may appeal the results within 72 hours after publication of the preliminary results by writing to the organizer's e-mail address (Section 14). After this period expires, the preliminary results, taking into account any changes, are considered final.

9.6 The Organizing Committee does not guarantee that a personal result will be recorded if:

- the participant attached the bib incorrectly;
- the race bib is torn, crumpled, etc.;
- the electronic chip is demagnetized, torn, crumpled, etc.;
- the participant lost the bib.

9.7 The start of a distance takes place through the start arch from the start corral. A participant who started not from the start arch is not considered a race finisher. Entry to the start corral is permitted only with a race bib attached horizontally to the front of the chest. The admission time is stated in the regulations of each event.

9.8 The participant must complete the distance alone, without assistive aids; persons with disabilities are allowed to use necessary assistive aids. The 100 m distance, which may be completed with parents, is also an exception.

9.9 If a participant deviates from the route, they must return to the point of deviation and continue the distance from it. Otherwise, they may be disqualified (Section 16).

9.10 On the course, the participant must behave tolerantly toward other participants. All disputed issues related to unsportsmanlike conduct are resolved by the Organizing Committee unilaterally.

9.11 **Time limits:**

- for the 42.195 km distance — 6 hours;
- for the 21.0975 km distance — 3 hours;
- for the 10 km distance — 1 hour 30 minutes;
- for the 5 km distance — 45 minutes;
- for the 1 km or 2 km distance — 20 minutes.

9.12 Participants who do not meet the time limit are removed from the course and may continue moving outside the competition route (sidewalks, pedestrian paths, etc.), observing the Traffic Rules of Ukraine.

9.13 Results are published in the Overall Rank format — the overall ranking of all participants regardless of gender — and in the following age categories: 13–19, 20–29, 30–39, 40–49, 50–59 and 60 years and older.

10 Participant Health and Medical Support

10.1 Each participant takes part in the competition voluntarily, acknowledging all probable risks to their health before, during and after the competition. Each participant is personally responsible for their physical condition, health and ability to complete the chosen distance.

10.2 Medical certificates are not required. The participant must inform the organizer of any individual health conditions that carry risks while completing the distance.

10.3 With the participant's consent, the organizer may withhold the race packet if there are risks that may threaten the participant's life and health. At its own discretion, the organizer may remove a participant from the course if they need medical assistance.

10.4 Responsibility for the life and health of participants under 18 lies with their parents or legal representatives.

10.5 Citizens of foreign states must provide medical insurance covering the risks of participation in sports competitions.

10.6 The Organizing Committee is not responsible for:

- physical injuries, damage and deterioration of physical condition that the participant suffered before, during or after the event;
- any losses (including loss of or damage to personal belongings) that the participant suffered during the competition, and other harm caused during the competition by participants or spectators.

10.7 The Organizing Committee must involve volunteers and medical staff in supporting the event, who, within their competence and capabilities, provide medical assistance to participants when needed.

11 Event Schedule

11.1 Each event in each city has its own separate schedule.

11.2 The schedule is published separately for each event in the RaceNext app, in the participant guide and on external displays in the marathon village.

12 Children's Races

12.1 Participants enter the start corral exclusively by race bibs that indicate the distance and the sequence number of the race.

12.2 Only participants in the 100 m race are allowed to complete the distance with parents or persons acting in their place.

12.3 Participants of the 500 m and 300 m distances who completed the distance on their own remain in the finish corral until they are picked up by their parents or persons acting in their place.

12.4 Each participant may complete the respective distance only once. Repeat participation in any of the children's races within the same start day is not allowed.

13 Awarding of Winners

13.1 Winners and prize-winners are determined by timing in accordance with these Regulations. The final determination of winners takes place after consideration of protests. The event winner is determined by the “gun time” principle.

13.2 Winners and prize-winners of the races are awarded in accordance with the schedule of each event.

13.3 Winners and prize-winners of the overall category are not awarded in age categories.

13.4 Participants are awarded in the following age categories: 40–49, 50–59 and 60 years and older. If a distance has 5 or more participants aged 70 and older, the categories 60–69 and 70 and older are introduced. The remaining age categories (clause 9.13) are counted in the results only.

13.5 If fewer than 5 participants are registered in any age category, only 1st place is awarded.

13.6 In case of violation of the event regulations or the provisions of these Regulations, a participant may be denied an award, with an explanation of the reasons for the refusal.

13.7 The organizer presents valuable prizes to winners and prize-winners immediately during the award ceremony. If a participant is absent from the award ceremony, only a monetary reward may be provided.

13.8 Winners and prize-winners receive the monetary reward by bank transfer within 7 business days from the moment of final determination of winners and prize-winners. Bank details for payment must be sent to the Organizer’s representative at info@newrun.com.ua.

13.9 **In accordance with clause 170.6 of Article 170 of the Tax Code of Ukraine, personal income tax (18%) and military levy (5%) are charged on the monetary reward at the rates in force at the time of payment.**

13.10 Winners and prize-winners of children’s races are awarded separately for each race — boys and girls. Overall winners are not determined at the distances of 100 m, 300 m and 500 m.

14 Protests and Dispute Resolution

14.1 A participant has the right to file a protest, which is considered by the Organizing Committee. Protests may concern:

- the distribution of prize places;
- inaccuracy in measuring the time in which the participant completed the distance;
- disqualification of a participant for unsportsmanlike conduct.

14.2 Other protests may be ignored by the Organizing Committee due to their insignificance (including typos, incorrect registration data, etc.).

14.3 When filing a protest, the following must be stated in an e-mail to info@newrun.com.ua:

- surname and first name (anonymous claims are not considered);
- the substance of the claim;
- materials proving the error (photo and video materials).

14.4 The response to a protest is determined by the Organizing Committee independently and individually.

14.5 **Deadlines for filing protests:**

- regarding the distribution of prize places — in writing or orally from the moment winners are determined until the official award ceremony;
- regarding inaccuracy of time measurement — within 72 hours after publication of the preliminary results (clause 9.5);
- on other matters, including disqualification — within the next day after the end of the event, in writing to the Organizing Committee’s e-mail address.

14.6 The distribution of prize places after the award ceremony may be reviewed by the Organizing Committee only if violations of the rules by winners and prize-winners are discovered and could not have been detected before the ceremony.

14.7 In disputed situations, the Organizing Committee may make an independent decision without explanation.

15 Changes to the Event, Force Majeure

15.1 Changes to the distance routes and to the event regulations are possible during preparation for the event. The organizer will immediately notify participants of such changes through announcements on the official social media pages.

15.2 In the event of unforeseen force majeure circumstances, namely:

- circumstances caused by exceptional weather conditions and natural disasters that threaten the safety of participants;
- circumstances arising from conditions regulated by relevant decisions and acts of state authorities or local self-government bodies;
- declaration of an Air Raid Alert in the city;
- circumstances related to martial law: introduction or change of curfew, threat of missile strikes or other hostilities, shelling, decisions of the military administration banning or restricting mass events, as well as other situations that create a direct threat to the life and health of participants,

the event may be postponed, rescheduled to other dates or cancelled. In these cases, the organizer does not compensate participants for losses, except for participants who purchased the “Entry Fee Insurance” service (Section 4).

15.3 **Procedure in case of an Air Raid Alert:**

- if an Air Raid Alert is declared in the host city before the start of the competition, the start is suspended and postponed by 1 hour. The event officially resumes after the alert is lifted and the corresponding decision of the Organizing Committee. Such a postponement of the start is not considered a postponement of the event within the meaning of Section 4;
- while on the course, each participant independently decides whether to go to a shelter. The organizer is not responsible for the participant’s decision to continue completing the distance on the route;
- if the Air Raid Alert lasts more than 2 hours, the organizer reserves the right to postpone or cancel the event.

16 Disqualification

16.1 The Organizing Committee reserves the right to disqualify a participant if they:

- ran under another participant’s registered bib number;
- attached the race bib incorrectly;
- was accompanied by another person who is not registered for the race (except in cases provided for by these Regulations);
- deviated from the route and did not return to the point of deviation;
- ran a distance for which they were not registered;
- ran more than one distance at the same time;
- used a means of transportation (bicycle, scooter, car or any other means);
- started the race before the official start or not from the start line;
- started the race after the start zone closed;

- after being removed from the course for exceeding the time limit, continued along the route and finished after the finish zone closed;
- ran without an official bib;
- displayed unsportsmanlike conduct;
- in other cases — by decision of the Organizing Committee.
